

Asset Management

We provide the best services on Asset Management:
Asset Tagging, Verification, Software.

Why Asset Management is Important

A company is able to keep track of details of all fixed movable and immovable asset ensuring control and preventing misappropriation of assets. This helps one to know exactly what assets one currently has, where the assets are located and how these assets are changing over time. It also helps to clean up the asset register of any disposals or movements that may not have been captured in the books and by giving up to date records of the asset.

Barcode label printing system

Our technical training and strength of experience is in troubleshooting, repairing and servicing barcode label printing systems, coupled with our knowledge of label and ribbon products, host communications and networks, label/barcode printing software and printer drivers.

Bewa Technical Services provides on-site barcode printer repair.
